

Please do not give LPFM priority over FM translator services. We are privileged to have listener-supported K-LOVE radio in our community and it is so important to have a positive influence such as K-Love, especially as an alternative for our youth to listen to. I personally have been comforted and uplifted by tuning in to K-Love. Please take this into consideration because this is an issue that is very important to K-Love listeners all across America. Thank you for your time.
